### SECTION 2. HAZARDS IDENTIFICATION

**Classification of the chemical**

Clear blue liquid. Detergent Scent.

This material is classified as hazardous under U.S. OSHA regulations (29CFR 1910.1200) (Hazcom 2012) and Canadian WHMIS regulations (Hazardous Products Regulations) (WHMIS 2015).

**Hazard classification:**
- Flammable liquid - Category 2
- Eye Irritant - Category 2A
- Specific target organ toxicity - single exposure - Category 3

**Label elements**

**Hazard pictogram(s)**

**Signal Word**

DANGER!

**Hazard statement(s)**

- Highly flammable liquid and vapor.
- Causes serious eye irritation.
- May cause respiratory irritation.
- May cause drowsiness or dizziness.

**Precautionary statement(s)**
Wash hands and face thoroughly after handling.
Wear protective gloves and eye/face protection.
Avoid breathing vapors.
Use only outdoors or in a well-ventilated area.
Keep away from heat, sparks and open flame. - No smoking.
Keep container tightly closed.
Ground/Bond container and receiving equipment.
Use explosion-proof electrical/ventilating/lighting/equipment.
Use only non-sparking tools.
Take precautionary measures against static discharge.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists, get medical advice/attention.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
Call a POISON CENTER or doctor/physician if you feel unwell.
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

Store in a well-ventilated place. Keep cool.
Keep container tightly closed.
Store locked up.

Dispose of contents/container in accordance with local regulation.

Other hazards
Other hazards which do not result in classification:
Burning produces obnoxious and toxic fumes. Ingestion may cause irritation of the mouth, throat and stomach.
Prolonged skin contact may cause dermatitis (rash), characterized by red, dry, itching skin.

Environmental precautions: Avoid release to the environment. See ECOLOGICAL INFORMATION, Section 12.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>
<th>Chemical name</th>

<tr>
<td>Glycol ether EB</td>
<td>EGMBE; Ethylene Glycol Monobutyl Ether</td>
<td>111-76-2</td>
<td>&lt;1</td>
</tr>
</tbody>
</table>

SECTION 4. FIRST-AID MEASURES

Description of first aid measures

**Ingestion**: Do NOT induce vomiting. Have victim rinse mouth with water, then give one to two glasses of water to drink. Never give anything by mouth to an unconscious person. If vomiting occurs spontaneously, keep victim’s head lowered (forward) to reduce the risk of aspiration. Call a POISON CENTER or doctor/physician if you feel unwell.

**Inhalation**: Immediately remove person to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen by qualified medical personnel only. Call a POISON CENTER or doctor/physician if you feel unwell.

**Skin contact**: Remove/Take off immediately all contaminated clothing. Wash exposed area thoroughly with soap and water for at least 15 minutes. If irritation or symptoms develop, seek medical attention. Wash contaminated clothing before re-use.

**Eye contact**: Immediately flush eyes with plenty of water for at least 15 minutes. If irritation persists, seek prompt medical attention.
SAFETY DATA SHEET

Most important symptoms and effects, both acute and delayed
: Causes serious eye irritation.  
  May cause drowsiness or dizziness.  
  May cause respiratory irritation.

Indication of any immediate medical attention and special treatment needed
: Treat symptomatically.

SECTION 5.  FIRE-FIGHTING MEASURES

Extinguishing media
Suitable extinguishing media
: Use water fog or fine spray, foams, carbon dioxide or dry chemical.

Unsuitable extinguishing media
: Do not use a solid water stream as it may scatter and spread fire.

Special hazards arising from the substance or mixture / Conditions of flammability
: Flammable liquid and vapor. Will ignite when exposed to heat, flame and other sources of ignition. Vapours are heavier than air and collect in confined and low-lying areas. Vapour can travel considerable distance and flashback to a source of ignition. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

Flammability classification (OSHA 29 CFR 1910.106)
: Flammable liquid - Category 2

Hazardous combustion products
: Carbon oxides; Other unidentified organic compounds

Special protective equipment and precautions for firefighters
Protective equipment for fire-fighters
: Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode.

Special fire-fighting procedures
: Move containers from fire area if safe to do so. Do not use water.

SECTION 6.  ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
: Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with the clean-up should wear the appropriate chemically protective equipment. Refer to protective measures listed in sections 7 and 8.

Environmental precautions
: Ensure spilled product does not enter drains, sewers, waterways, or confined spaces.

Methods and material for containment and cleaning up
: Remove all sources of ignition. Ventilate area of release. Stop the spill at source if it is safe to do so. Use only non-sparking tools and equipment in the clean-up process. Contain and absorb spilled liquid with non-combustible, inert absorbent material (e.g. sand), then place absorbent material into a container for later disposal (see Section 13). Notify the appropriate authorities as required.

Special spill response procedures
: If a spill/release in excess of the EPA reportable quantity is made into the environment, immediately notify the national response center in the United States (phone: 1-800-424-8802). See section 15.

SECTION 7.  HANDLING AND STORAGE

Precautions for safe handling
SAFETY DATA SHEET

Wear chemically resistant protective equipment during handling. Use only in well-ventilated areas. Avoid breathing vapors. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks, and open flames. Use proper bonding and grounding techniques when transferring liquid. Use caution when opening cap. Keep container tightly closed. Wash thoroughly after handling.

Conditions for safe storage: Store in a cool, dry, well-ventilated area. Store away from incompatible materials. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Inspect periodically for damage or leaks. No smoking in the area.

Incompatible materials: Strong oxidizing agents; Strong acids; Reactive metals; Water.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits:

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>ACGIH TLV TWA</th>
<th>ACGIH TLV STEL</th>
<th>OSHA PEL PEL</th>
<th>OSHA PEL STEL</th>
</tr>
</thead>
<tbody>
<tr>
<td>Isopropanol (Isopropyl alcohol)</td>
<td>200 ppm</td>
<td>400 ppm</td>
<td>400 ppm</td>
<td>N/Av</td>
</tr>
<tr>
<td>Glycol ether EB</td>
<td>20 ppm</td>
<td>N/Av</td>
<td>50 ppm (skin)</td>
<td>N/Av</td>
</tr>
</tbody>
</table>

Note: Formaldehyde and Ethanol are not intentionally added to this product.

Exposure controls

Ventilation and engineering measures: General mechanical ventilation and local exhaust is recommended for use with this product.

Respiratory protection: Use in a well-ventilated area. If the TLV is exceeded, a NIOSH/MSHA-approved respirator is advised. Advice should be sought from respiratory protection specialists.

Skin protection: For prolonged skin exposure, gloves impervious to the material are recommended. Advice should be sought from glove suppliers.

Eye / face protection: Safety glasses with side-shields or chemical splash goggles.

Other protective equipment: An eyewash station and safety shower should be made available in the immediate working area. Chemical resistant apron. Safety boots per regulations.

General hygiene considerations: Avoid breathing vapors. Avoid contact with skin, eyes and clothing. Do not eat, drink or smoke when using this product. Upon completion of work, wash hands before eating, drinking, smoking or use of toilet facilities. Remove soiled clothing and wash it thoroughly before reuse.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Clear blue liquid.

Odour: Detergent scent.

Odour threshold: N/Av

pH: N/Av

Melting/Freezing point: N/Av

Initial boiling point and boiling range: Not available.

Flash point: <21.1°C (<70°F)

Flashpoint (Method): PMCC

Evaporation rate (BuAe = 1): (water = 1)

Flammability (solid, gas): N/Ap

Lower flammable limit (% by vol.): N/Av
SAFETY DATA SHEET

Upper flammable limit (% by vol.) : N/Av
Oxidizing properties : None known.
Explosive properties : Not explosive
Vapour pressure : N/Av
Vapour density : N/Av
Relative density / Specific gravity : 0.983
Solubility in water : soluble
Other solubility(ies) : N/Av
Partition coefficient: n-octanol/water or Coefficient of water/oil distribution : N/Av
Auto-ignition temperature : N/Av
Decomposition temperature : N/Av
Viscosity : N/Av
Volatiles (% by weight) : N/Av
Volatile organic Compounds (VOC's) : N/Av
Absolute pressure of container : N/Ap
Flame projection length : N/Ap
Other physical/chemical comments : No additional information.

SECTION 10. STABILITY AND REACTIVITY

Reactivity : Not normally reactive.
Chemical stability : Material is stable under normal conditions.
Possibility of hazardous reactions : No dangerous reaction known under conditions of normal use.
Conditions to avoid : Avoid excessive heat, sparks and open flame.
Incompatible materials : Strong oxidizing agents; Strong acids; Reactive metals; Water.
Hazardous decomposition products : Refer to Section 5 for additional ‘Hazardous combustion products’.

SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure:

Routes of entry inhalation : YES
Routes of entry skin & eye : YES
Routes of entry Ingestion : YES
Routes of exposure skin absorption : NO

Potential Health Effects:

Signs and symptoms of short-term (acute) exposure

Sign and symptoms Inhalation
SAFETY DATA SHEET

May cause irritation to the nose, throat and upper respiratory tract. Symptoms may include pain, headache, nausea, vomiting, dizziness, drowsiness and other central nervous system effects. Extremely high concentrations could result in unconsciousness and death. Avoid heating, which will result in the liberation of formaldehyde gas. Formaldehyde causes severe respiratory irritation, lung inflammation and pulmonary edema.

Sign and symptoms ingestion

May cause irritation of mouth, throat, and stomach. Symptoms may include pain, headache, nausea, vomiting, dizziness, drowsiness and other central nervous system effects. Product may present an aspiration hazard, if ingested in large amounts, causing life-threatening lung injury.

Sign and symptoms skin

Direct skin contact may cause slight or mild, transient irritation.

Sign and symptoms eyes

May cause moderate to severe irritation. Avoid heating, which will result in the liberation of formaldehyde gas. Formaldehyde gas causes moderate to severe eye irritation.

Potential Chronic Health Effects

Prolonged or repeated skin exposure may cause redness, a burning sensation, drying and cracking of the skin (dermatitis).

Mutagenicity

Not expected to be mutagenic in humans.

Carcinogenicity

No components are listed as carcinogens by ACGIH, IARC, OSHA or NTP. Avoid heating, which will result in the liberation of formaldehyde gas. Formaldehyde is classified as carcinogenic by IARC (Group 1), ACGIH (Group A2) and NTP (Group 2).

Reproductive effects & Teratogenicity

Not expected to cause reproductive effects.

Sensitization to material

Not expected to cause sensitization.

Specific target organ effects

Eyes, skin, respiratory system, digestive system, central nervous system.

The substance or mixture is not classified as specific target organ toxicant, repeated exposure. The substance or mixture is not classified as specific target organ toxicant, single exposure.

Medical conditions aggravated by overexposure

Pre-existing skin, eye, respiratory and central nervous system disorders.

Synergistic materials

N/A

Toxicological data

Contains no ingredients that are considered to have acute toxicity hazards. See below for individual ingredient acute toxicity data.

</tr>
</tbody>
</table>

Mobility in soil:
- No data is available on the product itself.

Other Adverse Environmental effects:
- The ecological characteristics of this product have not been fully investigated. The product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters.

SECTION 13. DISPOSAL CONSIDERATIONS

Handling for Disposal:
- Handle waste according to recommendations in Section 7.

Methods of Disposal:
- Dispose in accordance with all applicable federal, state, provincial and local regulations.

RCRA:
- If this product, as supplied, becomes a waste in the United States, it may meet the criteria of a hazardous waste as defined under RCRA, Title 40 CFR 261. It is the responsibility of the waste generator to determine the proper waste identification and disposal method. For disposal of unused or waste material, check with local, state and federal environmental agencies.
SECTION 14. TRANSPORTATION INFORMATION

**49CFR/DOT Additional information**

May be shipped as LIMITED QUANTITY when transported in cans no larger than 1 L, in packages not exceeding 30 kg gross mass.

| TDG | UN1993 | FLAMMABLE LIQUID, N.O.S. (Isopropanol) | 3 | II |      |

**TDG Additional information**

Within Canada, the Limited Quantity Exemption may apply for containers which hold specific quantities of the product. Under the TDGR, refer to section 1.17 for Limited Quantity Exemption information, if shipping under this exemption.

Special precautions for user: Appropriate advice on safety must accompany the package. Keep away from heat and open flames. - No smoking.

Environmental hazards: This product does not meet the criteria for an environmentally hazardous mixture, according to the IMDG Code. See ECOLOGICAL INFORMATION, Section 12.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: This information is not available.

SECTION 15 - REGULATORY INFORMATION

US Federal Information:

Components listed below are present on the following U.S. Federal chemical lists:

<table>

Canadian Information:
SAFETY DATA SHEET

WHMIS information: This product is a WHMIS Controlled Product. It meets one or more of the criteria for a controlled product provided in Part IV of the Canadian Controlled Products Regulations (CPR). Refer to Section 2 for a WHMIS Classification for this product.

Canadian Environmental Protection Act (CEPA) information: All ingredients listed appear on the Domestic Substances List (DSL). This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and this MSDS contains all the information required by the CPR.

International Information:
Components listed below are present on the following International Inventory list:
